# Timing Of The Potential Winter Weather

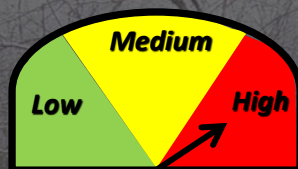

Early Evening

*Impact Meter*

- Rain begins moving into south central Kentucky
- No impacts expected during this time

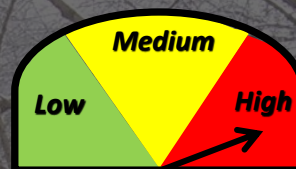

Tonight

*Impact Meter*

- Snow and ice along and north of the Bluegrass & Western KY Parkways; Rain to the south of them
- **Ice & Snow accumulations likely. Impacts to roads likely.**
- **Some ponding of water and rises on small streams**

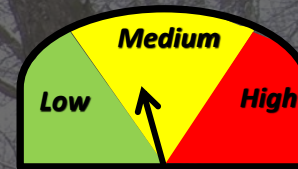

Wed Morning

*Impact Meter*

- Transition to mainly freezing rain. Ice mainly north of Bluegrass & Western KY Parkways, with rain to the south
- **Ice accumulations likely. Impacts to roads likely.**
- **Some ponding of water and rises on small streams**

Wed Afternoon

*Impact Meter*

- Precipitation ending across region
- Roads could still be slushy/icy, but **warming air temperatures should improve road conditions**
